

Metropolitan Paint Codes

Please Note: These modern paint codes are accurate to the best of our knowledge but be sure to check the paint color match carefully before purchasing the paint or applying it to your car!!! This codes sheet is to be used as a reference only and exact matches are not guaranteed due to local variations in the paint matching process.

The updated (2-8-12) serial numbers for the various paint colors have been provided to us by David Austin, MOCNA club historian.

PPG (April, 2004)
